

POWER SOCCER

Power Soccer is a fast-paced, competitive sport for people with disabilities using power chairs. It is a modified version of able-bodied soccer, where special foot guards attached to the power chairs are used to hit an oversized soccer ball. Games are played in a gymnasium on a regulation sized basketball court.

WHO CAN PLAY?

Power Soccer is available to anyone who uses a power chair for daily living and is able to operate it safely. All athletes must be at least 5 years of age. Teams are coed, with males and females playing together.

OPPORTUNITIES IN BC

SportAbility works with community partners to offer programming across the Province. We are always open to expanding programs into new communities. If there is not currently a program operating in your community, please reach out!
